INSTRUCTIONS

1. Mix a generous amount of each color with water in a dish. We used 50% water and 50% paint.
2. Use a fan brush to dab a puddle of a color on the plate. Use the straw to blow the paint around.
3. While the previous color is still wet, add the next color and use the straw again to blow the colors together to overlap.
4. Continue your way around until the plate is covered.
5. Use small brushes to add splatter and spray by running your thumb over the brush.
6. Continue the same process to cover the cups. We used Mango Madness for the rims of all the cups.
7. Use a detail brush to add the writing in the center using Cranberry.
8. Use a liner brush to add a shadow to the writing using Licorice

TIPS

- Make sure to water down your paint when bubbling, we recommend 75% water to 25% paint
- You only need a drop of dish soap, trust us.
- Keep your dish level as you scrape off the bubbles, this will avoid all that watered down paint from spilling all over your piece.
- Tap the baby bubbles on the side of the straw onto the piece, they're adorable .
